

PAPERPAK™

Product Catalogue

Carrying your brand further

Sustainability Specialists

Sustainable packaging is undoubtedly the future, but we understand the pathway to that future is inconsistent, uncertain, and anything but clear.

That's where our sustainability experts come in, ensuring you have sustainable solutions fit for an evolving regulatory environment through 2030 and beyond.

Aligned with our 2025-2050 Sustainability Goals, it means sustainable choices today and the peace of mind you'll be ready for whatever tomorrow brings.

Supply Chain Strength

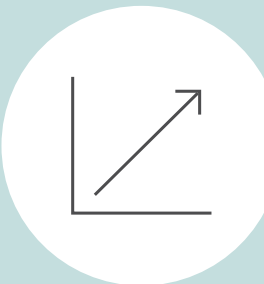

The bigger your business gets, the bigger the disruption when something unexpected occurs.

That's why we've deliberately built a global production network with supply contingency across every product category and a dedicated global sourcing team.

So, when you partner with PaperPak, you can rest assured packaging will never be your weakest link.

Supporting Your Growth

When your brand grows, typically so do your problems and in a growing business, you don't have time to be a packaging expert.

At PaperPak, our retail packaging experts help provide bespoke solutions for your business. And don't worry, we've done this with countless other brands which have gone from small players to having a national footprint.

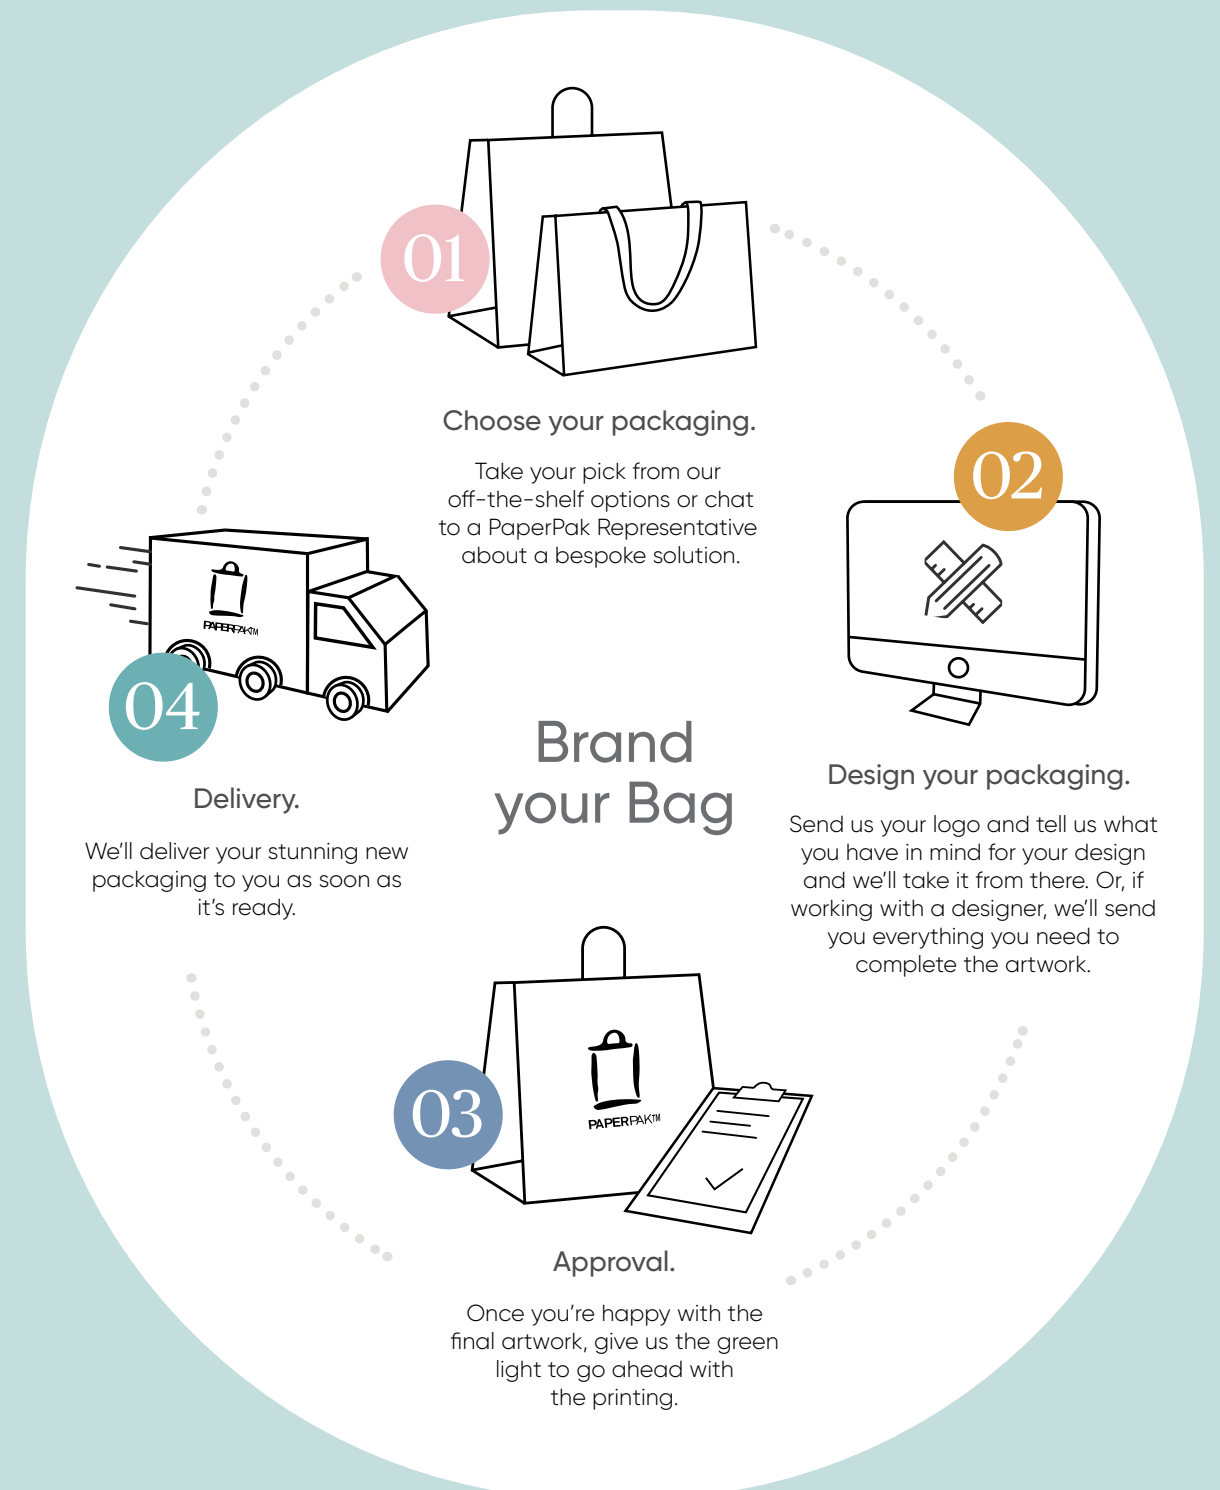

So, when you partner with PaperPak, we'll take care of your packaging so you can focus on growing your brand.

Elevate your brand further

Packaging isn't just a means to hold your products, it's a way to elevate your brand's visibility and enhance your customers' perception of your brand. At PaperPak, our retail packaging experts help provide bespoke solutions for your business, to carry your brand further. Whether you want a paper twist handle, a flat fold handle, or no handle at all, we can custom print our extensive range of paper bags for you. We can also custom print your design or logo on cartons, tissue paper, and wrapping paper.

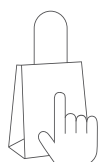

Scan to request your sample

Try before you buy

If you are unsure about what bag handle, which colour of tissue paper, or what size postage satchel to order, we are happy to send you up to 5 free packaging samples. Scan the QR code above, select your samples, and we will deliver to you anywhere across Australia.

How can a physical sample help?

Tangible Experience

Packaging is a tactile product. A sample will allow you to assess the quality, texture, and sturdiness of the material, which is hard to convey through images and descriptions. Holding and testing the packaging in real life will give you confidence in your choice.

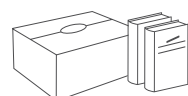

Size and Fit Assessment

You can check if the packaging dimensions suit your products. This is especially important for custom or specialty items where the fit needs to be perfect.

Design and Aesthetics

Seeing the design, colour, and finish in person allows you to ensure that the packaging aligns with your brand image and will appeal to your customers.

Functionality Testing

You can test how well the packaging performs in real-world scenarios – whether it protects your product during shipping, how easy it is to assemble, or how well it seals.

We've got you covered for 2030 and beyond

Australia and New Zealand are taking action against single-use problematic plastics (SUPPs)

The complexity of packaging legislation is expected to continue as APCO implements its 2030 strategy, the Commonwealth Government progresses reform and States & Territories act on problematic plastics.

At PaperPak, we're staying ahead of legislative changes, so you can feel confident we've got you covered.

Our extensive range of paper carry bags, wrapping paper, tissue and cartons offer alternative retail packaging options suitable for your location. Visit paperpak.co or contact our friendly team to stay up to date with legislative changes and discover compliant solutions for your region.

Responsible Sourcing

PaperPak facilities globally are FSC® and PEFC Chain of Custody certified, and we also offer FSC® and PEFC certified products. This allows fibre-based materials to be traced to its wood species and country/area of harvest.

Suppliers are also audited, to provide confidence that tree fibre materials are from responsibly managed sources.

The mark of responsible forestry

PEFC 21-31-300

Bottle Insert

STYLE	SIZE (L x D x H)	QTY/CTN	 NATURAL
3 Bottle Insert	968 x 326 x 60	20	M081S0010^

*For the 6 Bottle Laydown Carton, use two inserts

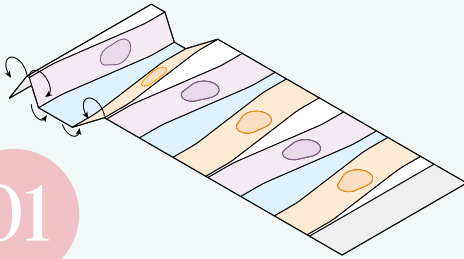

04

Place insert into carton and place bottles.

The folded insert is now ready to be placed into the laydown carton and filled with bottles.

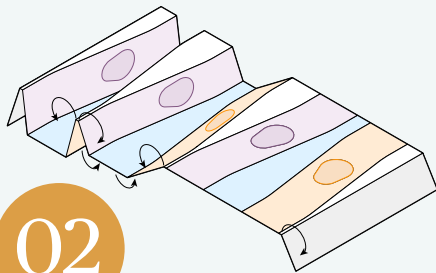

01

Pop up insert.

Open the insert and fold along the creases.

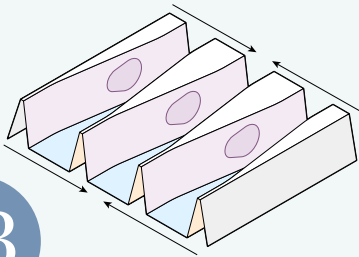

02

Fold up walls.

Raise the outer walls for stability and lock circular tabs into place.

03

Lift dividers.

Fold up the second divider, then the two following dividers.

Wrapping and Tissue Paper

Our wrapping and tissue paper adds an extra layer of detail to the retail shopping and gift-giving experience

Our range is available in a selection of colours and patterns, from soft and subtle to vibrant and glossy. This range can be coordinated with our carry bags and gift bags, but for the ultimate brand experience, consider custom printing.

Understanding our Packaging Terms

Australian Made

A product can be described as 'Australian made' or 'made in Australia' if it underwent its last substantial transformation in Australia.

Recyclable

A product or material is recyclable if it can be collected and re-manufactured into a new product. If a PaperPak product is listed as recyclable, it means this product can be readily recycled via kerbside recycling streams.

Compostable

Our compostable packaging is made from organic materials that break down naturally in optimal conditions leaving no toxic residue. Microorganisms, humidity, and heat is required to break packaging down effectively and when combined with green waste and food scraps, can create a nutrient dense compost to improve our soils.

Acid Free

Acid-free paper does not contain any harmful acid that can damage documents, paintings, etc.

FSC® Certified

FSC® Certified products are made from fibre-based materials that can be traced to their wood species and country/area of harvest.

How we measure our products

Measurements throughout our Product Catalogue are displayed in millimetres and meters.

Bags and Satchels

H x W x G
Height x Width x Gusset
(where applicable)

Cartons and Mailers

L x D x H
Length x Depth x Height

Wrapping Paper

W x L
Width x Length (in metres)

Tissue Paper

L x W
Length x Width
